HIS HONOUR the Lieutenant-Governor directs the publication of the following Circular, issued by the Commander-in-Chief, and desires to express the hope, for reasons that will appeal to every reader, that the request for the restoration to the Boers of prized family Bibles lost by them during the late war will meet with a generous response.

Any such Bibles may be sent to the Provincial Secretary's Office, and they will be forwarded to the Secretary of State of Canada for transmission to London.

Provincial Secretary's Office,  
18th August, 1903.

WAR OFFICE,  
London, S. W., June, 1903.

SIR,—I am directed by the Commander-in-Chief to inform you that it has been brought to his notice that, on the conclusion of the recent War in South Africa, a large number of Boer families found, on returning to their farms, that their family Bibles had disappeared.

It appears that the Boer inhabitants of the South African Colonies set great store by their family Bibles, which often contain family records of some antiquity and even in some cases are the only repository of such

records in consequence of the unavoidable destruction of church registers.

Lord Roberts feels sure that if any persons have in their possession any of these Bibles they will willingly return them when they learn how they are valued by their former possessors and he thinks it unnecessary to emphasise how much such a kindly act would be appreciated by our new fellow subjects.

He therefore wishes it to be known as widely as possible among all officers and soldiers who are now serving or have been retired, discharged or relegated to the Reserve, whether they belong or belonged to the Regular Army, Auxiliary or Colonial Corps and also among any of their friends, to whom they may have given them as relics, that Mr. W. H. Alexander, of 12, Bishopsgate Street Without, London, E. C., has kindly consented to receive and dispatch to their owners any such Bibles which may have been taken from Boer farms.

He feels sure that the above facts and the knowledge that it is his wish that all such relics should find their way back to their former owners will be sufficient to ensure that their present owners, however much they value them, will readily part with them for this purpose.

I am, etc.

A. WYNNE,

D. A. G.

The General Officer Commanding.

### LEGISLATIVE ASSEMBLY.

#### PRIVATE BILLS.

EXCERPT FROM RULES AND ORDERS RELATING TO PRIVATE BILLS.

#### RULE 59.

ALL APPLICATIONS for Private Bills, properly the subject of legislation by the Legislative Assembly of British Columbia, within the purview of the "British North America Act, 1867," whether for the erection of a Bridge, the making of a Railway, Tramway, Turnpike Road, or Telegraph or Telephone Line; the construction or improvement of a Harbour, Canal, Lock, Dam, Slide, or other like work; the granting of a right of Ferry; the incorporation of any particular trade or calling, or of any Joint Stock Company; or otherwise for granting to any individual or individuals any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which in its operation would affect the rights or property of other parties, or relate to any particular class of the community, or for making any amendment of a like nature to any former Act,—shall require a Notice, clearly and distinctly specifying the nature and object of the application and, where the application refers to any proposed work, indicating generally the location of the work, and signed by or on behalf of the applicants, such notice to be published as follows:—

In the BRITISH COLUMBIA GAZETTE, and in one newspaper published in the District affected, or if there be no newspaper published therein, then in a newspaper in the next nearest District in which a newspaper is published.

Such notice shall be continued in each case for a period of at least six weeks, during the interval of time between the close of the next preceding Session and the consideration of the Petition, and copies of such notice shall be sent by the parties inserting such notice to the Clerk of the House to be filed amongst the records of the Committee on Standing Orders.

57. No Petition for any Private Bill shall be received by the House after the first ten days of each Session, nor may any Private Bill be presented to the House after the first three weeks of each Session, nor may any Report of any Standing or Select Committee upon a Private Bill be received after the first four weeks of each Session, and no Motion for the suspension or modification of this Rule shall be entertained by the House until the same has been reported on by the Committee on Standing Orders, or after reference made thereof at a previous sitting of the House to the Standing Committees charged with consideration of Private Bills, who shall report thereon to the House. And if this Rule shall be suspended or modified as aforesaid the promoters of any Private Bill which is presented after the time hereinbefore limited, or for which the Petition has been received after the time hereinbefore limited, shall in either case pay double the fees required as herein mentioned, unless the House shall order to the contrary. Any person seeking to obtain any Private Bill shall deposit with the Clerk of the House, eight days before the opening of the Session, a printed copy of such Bill, a copy of the Petition to be presented to the House, *together with the notices published*. At the time of depositing the Bill, the applicant shall also pay to the Clerk of the House a sum of three hundred dollars. If a copy of the Bill, Petition and notices shall not have been so deposited in the hands of the Clerk of the House at least eight days before the

opening of the Session, and if the Petition has not been presented within the first ten days of the Session, the amount to be paid to the Clerk shall be six hundred dollars. If the Bill shall not pass second reading one-half of the fees paid shall be returned.

60. Before any Petition, praying for leave to bring in a Private Bill for the erection of a Toll Bridge, is received by the House, the person or persons intending to petition for such Bill shall, upon giving the notice prescribed by rule 59, also at the same time and in the same manner, give notice of the rates which they intend to ask, the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts and vessels, and mentioning also whether they intend to erect a drawbridge or not, and the dimensions of the same.

61. All Private Bills for Acts of Incorporation shall be so framed as to incorporate by reference the clauses of the General Acts relating to the details to be provided for by such Bills:—Special grounds shall be established for any proposed departure from this principle, or for the introduction of other provisions as to such details, and a note shall be appended to the Bill indicating the provisions thereof in which the General Act is proposed to be departed from. Bills which are not framed in accordance with this Rule shall be re-east by the promoters and re-printed at their expense before any Committee passes upon the clauses.

65. All Private Bills shall be prepared by the parties applying for the same, and printed in Small Pica type, twenty-six ems by fifty ems, on good paper, in imperial octavo form, each page when folded measuring  $10\frac{3}{4}$  inches by  $7\frac{1}{2}$  inches. There shall be a marginal number every fifth line of each page; the numbering of the lines is not to run on through the Bill, but the lines of each page are to be numbered separately. Two hundred copies of each Bill shall be deposited with the Clerk of the House immediately before the first reading. If amendments are made to any Bill during its progress before the Committee on Private Bills, or through the House, such Bill shall be reprinted by the promoters thereof.

By new Rule 65A, passed on the 2nd April, 1901 (see Journals, 1901, page 58), a model form of Railway Bill is adopted.

By 65B all Bills to incorporate or amend Bills incorporating railway companies are to be drawn in accordance with the Model Bill.

The provisions contained in any Bill which are not in accord with the Model Bill shall be inserted between brackets.

Any exceptional provisions that it may be proposed to insert in any such Bill shall be clearly specified in the notice of application for the same.

## DOMINION ORDERS IN COUNCIL.

(Ref. 450,277.)  
AT THE GOVERNMENT HOUSE AT OTTAWA.  
Tuesday, the 25th day of August, 1903  
PRESENT:  
HIS EXCELLENCY THE GOVERNOR-GENERAL  
IN COUNCIL.

WHEREAS the Coal Mining Regulations established by Order in Council of the 19th of May, 1902, provide that lands containing coal other than anthracite will be sold at an upset price of \$10.00 an acre, and that the coal mining rights under lands the surface rights of which have been disposed of, will be sold at the rate and on the terms prescribed by the Regulations, less the price ruling for surface rights in the class in which the lands may be situated:

And whereas the price at present ruling for the surface rights of lands in the North-West Territories is three dollars an acre, so that the coal mining rights are sold at seven dollars an acre, but as the price ruling for the surface rights of all Dominion lands is not the same, it is thought advisable to establish a fixed minimum price for the coal mining rights:

Therefore, the Governor-General in Council is pleased to order that section 11 of the Coal Mining Regulations established by the Order in Council of the 19th of May, 1902, above referred to, shall be and the same is hereby amended by adding thereto the following provision:—"but in no case at less than "seven dollars an acre."

Water .....	60 gals.

*Directions.*

Place 10 pounds of lime and 20 pounds of sulphur in a boiler with 20 gallons of water, and boil over a brisk fire for two hours, until the sulphur is thoroughly dissolved. It will then be amber-coloured. Next place 20 pounds of lime in a cask and pour water enough over it to thoroughly slack it. Add the salt. When dissolved, add to the lime and sulphur and boil half an hour longer. Add enough water to make 60 gallons. Apply lukewarm.

*Directions for use.*

Spray when the trees are dormant, or as soon as the leaves fall, and again in the spring before the buds swell. A good force-pump should be used, and care must be taken to thoroughly cover the infected trees with the mixture, which should be constantly stirred when applying.

The above preparation can be obtained in solid form, requiring only the addition of water to be ready for use, and, owing to the difficulty of preparation, the Board advises the adoption of this method. Care should be taken to add the necessary quantity of water to reduce the mixture to the strength recommended above.

NOTE.—To ensure freedom from lumps, it is advisable to pass the mixture through a wire sieve or strainer. Nozzles which are self-cleaning and adjustable, such as the "Improved Beau" and "Bordeaux," are best adapted for distributing this and other spraying mixtures which contain a considerable amount of solid matter.

*Spray No. 2.*

(Summer Spray for Aphis.)

*Ingredients.*

Quassia chips .....	8 lbs.
Whale oil soap .....	7 "
Water .....	100 gals.

*Directions.*

Boil the quassia chips in about one gallon of water to each pound quassia chips for one hour. Dissolve the soap in hot or boiling water; strain and mix both together, and add the required amount of water to make 100 gallons altogether.

To be used with spray pump with as much force as possible. This is the standard remedy for aphis in hop yards, and has given good results against other forms of aphides wherever tried, with no injury to foliage.

*Spray No. 4.*

(Bordeax Mixture for Apple-scab and other Fungous Diseases.)

*Ingredients.*

Sulphate of copper (bluestone).....	4 lbs.
Fresh unslacked lime.....	4 "
Water .....	50 gals.

*Directions.*

In a barrel place 25 gallons of water. Weigh out 4 pounds of sulphate of copper; then tie the same in a coarse gunny-sack and suspend it just beneath the surface of the water. By tying the bag to a stick laid across the top of the barrel, no further attention will be required.

In another vessel slack the 4 pounds of lime, using care in order to obtain a very smooth paste free from grit and small lumps. To accomplish this, it is best to add only a small quantity of water at first, say two or three pints. When the lime begins to crumble and the water disappears, add more water gradually.

If added carefully and slowly a smooth paste will be obtained, provided the lime is of good quality. Then add sufficient water to bring the whole up to 25 gallons.

When the copper sulphate is entirely dissolved and the lime cool, pour the lime, milk and copper sulphate solution slowly together in a barrel, and stir well with a broad wooden paddle to ensure perfect freedom from lumps of lime; it is often necessary to pass the whole mixture through a fine wire sieve or strainer before commencing to spray. For apple and pear-seab, spray before the buds open. Repeat before the blossoms expand, and again after the blossoms fall. If necessary, repeat again in ten days' time; this will depend upon weather conditions and variety of fruit treated.

The Vermorel nozzle, which distributes the spray in a mist-like foam, is probably the best for use with this mixture.

*Spray No. 8.—Hellebore.*

(For Pear and Cherry Slugs, Gooseberry and Currant Worms.)

For use with spray pump, take 1 ounce hellebore to 1 gallon of water. Steep the hellebore in one pint of boiling water for an hour, then add the balance of water, cold. Hellebore is, however, generally used in the powder form, dusted on the trees or plants treated. A machine for the purpose is the best method of using it on a large scale. In all cases care should be taken to get fresh hellebore to ensure satisfactory results.

*Spray No. 9.—Paris Green Spray.*

(For Codlin Moth, Caterpillars and other Leaf-eating Insects.)

*Ingredients.*

Paris green.....	4 ozs.
Fresh slacked lime .....	1 lb.
Water .....	50 gals.

Make a paste of the Paris green with a little water. Make the lime into milk of lime with water. Mix all together and add water to make the required amount.

Paris green is a heavy powder and does not remain long in suspension; hence it must be kept constantly stirred when using. Be sure that good lime is used to prevent burning of foliage. Apply with spray pump. London purple may be used in place of Paris green, but is not usually so reliable.

Paris green or London purple can generally be used to advantage with Bordeaux mixture, making a combined fungicide and insecticide. Use in the proportions given above, viz., 4 ounces Paris green to 50 gallons Bordeaux mixture.

*Spray No. 15.—Lye and Soap Wash.*

(For winter use only.)

*Ingredients.*

Concentrated lye.....	1 lb.
Whale oil soap .....	1 lb.
Water .....	5 gals.

*Directions.*

Dissolve the lye and soap in the water, heated. The mixture may be applied with a swab or brush, or with the spray pump if used warm. One thorough applica-

tion in the fall and another before growth commences in the spring should be made when used against woolly aphides. This is also an excellent wash to remove moss or lichen from trees and bushes, and for this purpose alone half the amount of soap is sufficient.

For further information regarding insect pests and spraying mixtures see Horticultural Bulletin, which can be obtained from members of the Board, or by application to the Department of Agriculture, Victoria.

11. Where pests or fungous diseases are found to exist during the growing season, while the trees are in leaf, spraying must be done and such remedies applied as shall be recommended by or under authority of the Board from time to time, so that the insects or diseases can at least be held in check until the stronger washes of the dormant season can be safely applied.

#### *Destruction of Packages.*

12. All boxes, crates or other packages or wrappings which have contained infected nursery stock shall be destroyed by fire immediately after the removal of the contents thereof.

#### *Hop-fields.*

13. Where hop-fields are infected with the hop-louse, spraying must be done as the Board from time to time shall recommend.

#### *Quarantine Regulations.*

14. Transportation companies, express companies, wharfingers, or warehousemen receiving or conveying nursery stock, trees, plants or fruit shall in no case deliver, or cause to be delivered, such nursery stock, trees, plants or fruit, or any portion thereof, to the owners, consignees, or any other person whatsoever, without the written permission of the quarantine or inspecting officer. All imported nursery stock, trees and plants shall, before being distributed in any part of British Columbia, be delivered at the Provincial Disinfecting Station in Vancouver, and there unpacked, inspected, and, if necessary, treated according to regulations of the Board, and after such inspection and treatment shall be carefully re-packed and forwarded, with all possible dispatch, to its destination, accompanied with a certificate of the inspecting officer.

#### *Inspection Fees.*

##### (On Nursery Stock, Trees and Plants.)

15. The fees for inspection of apple, pear, plum, cherry and other fruit trees shall be as follows:

On all consignments numbering—

Under 100 trees .....	\$2 50
100 trees and under 250 .....	3 50
250 trees and under 500 .....	4 50

And for every additional 500 trees or fraction thereof over 500, \$1 additional.

For other nursery stock the fees shall be as follows:—

\$2.50 on \$25.00 in value or fraction thereof.

\$3.50 on any consignment over \$25.00 and up to \$50 in value; and five per cent. additional on the value over \$50.00.

When nursery stock, trees or plants are found to be infected with insect pests or diseases, a charge of fifty per cent. will be added to the foregoing rates to pay expenses of the quarantine officers for supervising disinfection and subsequent inspections.

#### (On Fruit.)

On fruit—viz., apples, pears and quinces—the minimum fee shall be \$1.00 for any number of boxes up to 33, and all in excess of this number shall be at the rate of three cents per box. On fruit packed in barrels the fee shall be \$1.00 for any number of barrels up to ten, and for any number of barrels over ten the fee shall be at the rate of 10 cents per barrel; on peaches at the rate of 1½ cents per box, the minimum charge being \$1.00.

It is furthermore provided that all other varieties of fruit shall be subject to inspection, if deemed necessary, on the same terms and subject to the same fees as those above mentioned. Certified invoices will be required.

*Repealing former Rules and Regulations.*

18. All Rules and Regulations heretofore adopted and published under the authority of the "Horticultural Board Act," or any amendments thereto, are hereby repealed, and the foregoing Rules and Regulations substituted in lieu thereof.

*Recommendations.*

Horticultural and Agricultural Societies, and all those interested in advancing and protecting the interests of fruit-growing, are requested to co-operate with the Board in the enforcement of the provisions of the "Horticultural Act" and the regulations thereunder, as adopted by the Board.

*Correspondence.*

All correspondence relating to the extirpation of fruit pests should be addressed to the Inspector of Fruit Pests or the member of the Board whose district may be affected. Correspondence relating to other matters should be addressed to the Secretary of the Board.
